SUBJECT : Adherence to Directives on "Questionable Activities"

REFERENCES : (a) Memo dtd 29 Aug 73 to IG fr W. E. Colby, subj: Questionable Activities

(b) Memo dtd 29 Aug 73 to DDS&T, DDI, DDM&S, DDO fr W. E. Colby, subj: Questionable Activities

1. This Directorate received both references, and reference (b) had attached twenty-three policy statements pertaining to various activities conducted by the Directorate offices. These directives were forwarded to each office on 4 October 1973, as appropriate, and have represented the policy guidance from that time to date.

2. Five offices, i.e., OTR, OC, OP, OL, and OS, responded with comments or suggestions. All of these suggestions were forwarded to your office on 28 February 1974.

3. The Offices of Training and Communications offered revisions of a general policy statement which they thought might be beneficial to be included in Agency regulations. Their submissions did not bear on the policy directives given to guide their activities. The Office of Logistics proposed certain regulatory changes to reflect their policy directives and these regulatory changes have been made. The Office of Personnel recommended a minor technical amendment to [redacted] concerning "personnel detailed to or from the Agency." The records did not disclose whether my predecessor approved this amendment or not, but I will undertake immediate pursuit of the issue.

4. There was correspondence between the Director of Security and my predecessor, Mr. Brownman as Deputy Director for Management and Services, on six of the directives given that office. The matters appear to have been resolved with only one exception which,

in reality, is a technical correction to the policy directive

The directive further contained the following language in its last sentence:

"I would appreciate the Office of Security recommendations on this subject."

5. The item mentioned above appears to be the only matter in all the directives which has not been called to Director's attention. The position of the current Director of Security on this matter is as follows:

In connection with the above quoted recommendation from the current Director of Security, I would also note that the recommendation of the previous Director of Security was similar in vein and was forwarded to your attention on 28 February 1974.
